WHAT 3 WORDS

Describing location can be tricky because street addresses lack precision, especially when pinpointing specific spots like building entrances, which can complicate the task of finding places when out in the community and potentially hindering accurate instructions when seeking emergency services.

To help NCCN are going to be introducing 'What 3 Words' within care plans to help locate the service users properties with more ease.

To download the app you can scan the QR code or download it via the Apple App Store or on Google Play.

If you require any support with downloading or using the app please don't hesitate to contact us!

HOLIDAY REQUESTS

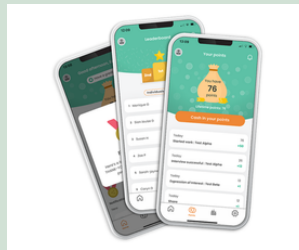

Please ensure to seek approval from your area care coordinator for your annual leave requests before making any holiday bookings. This precaution is necessary because there might be other staff members already on leave, potentially leading to the denial of your holiday request.

WELCOMING STAFF AND SERVICE USERS FROM WOLDS AND COAST

We are thrilled to announce the expansion of our services, to welcome a the team and service users from Wolds and Coast a Learning Disabilities Independent Supported Living provision in the Bridlington area. We recognise that change can bring both excitement and challenges, we are committed to supporting everyone through this transition. We are excited about the opportunities this expansion brings and yet our priority is to deliver compassionate care, respect, and dignity to all and a smooth integration process for all involved.

REFER A FRIEND

Don't forget you can earn money to add straight into your wages through the Care Friends app. Unlike the normal refer a friend program you get rewards for every step of the process and you choose when you cash them straight into your payroll.

SERVICE USER QUESTIONNAIRES

It's that time of year again where we send out questionnaires to a selection

of service users to review their service. If you notice them at the houses, please can you encourage/support them to complete and return them to allow us to continue to develop and improve the service.
